

Darius Coelho

+1-631-215-8475 | dcoelho@cs.stonybrook.edu | darius-coelho.github.io

EDUCATION

Stony Brook University

Ph.D. in Computer Science, Advised by [Prof. Klaus Mueller](#)
(GPA: 3.92 / 4.0)

Stony Brook, NY

Sep. 2012 – Present

Goa University (Padre Conceição College of Engineering)

B.E. Information Technology

Goa, India

Aug. 2007 – May 2011

TECHNICAL SKILLS

Proficient: Python, JavaScript, HTML/CSS, ReactJS

Competent: D3.js, Flask, R, C/C++, Unity3D, Qt, MATLAB

EXPERIENCE

Research Assistant at VAI Lab, Stony Brook University, Stony Brook, NY

Sep. 2014 – Present

- Conducted research and published articles on topics of visual analytics, data science, information visualization, and human-computer interaction.
- Developed multiple visualizations and visual analytics interfaces.

Research Intern at Akai Kaeru, Stony Brook, NY

Jun. 2020 – Aug. 2020

- Assisted in the design of a COVID-19 dashboard to visually explore risk factors in counties across the United States.
- Assisted in the development the COVID-19 dashboard.

Teaching Assistant at SUNY Korea, Incheon, S. Korea

Feb. 2013 – Jun. 2013

- Graded assignments for the Applied Calculus course (AMS 151).
- Assisted with conducting experiments for the Classical Physics Laboratory course (PHY 133)

PROJECTS

TaskFinder | Python, Flask, ReactJS, D3.js

June 2020 – Present

Developed a visualization recommender system that combines statistical methods and NLP techniques to identify relevant analytical tasks and associated visualizations to be applied to a given dataset.

PeckVis | Python, Flask, ReactJS, D3.js, R

Jan 2018 – June 2019

Developed a visual analytics interface that implements various analysis algorithms to analyze animal interaction data for dominance hierarchies and allows analysts to explore the data via a visual interface.

Infomages | C/C++, Qt, Google Custom Search API

Mar. 2014 – Nov. 2019

Developed a windows-based design interface that automates part of the infomage design process. The tool makes use of Google Custom Search API to retrieve images and OpenCV to embed data charts into them.

Share.va | ReactJS, D3.js, MultiChain

Jan. 2016 – Aug. 2019

Developed a framework to support collaboration with web-based visual analytics dashboards using a blockchain backend.

Contextual Nutrition Labels | ReactJS, D3.js, Python

June 2018 – Aug. 2019

Designed a visualization to serve as a more informative alternative to current nutrition facts labels.

AWARDS

Best Paper Runner-up Award at EuroVis 2020

May 2020

Best Paper Award at the Visual Data Science Symposium at IEEE VIS 2019

Oct. 2019

IT Consilience Creative Program Scholarship awarded by the Ministry of Science, ICT and Future Planning (MSIP) South Korea

Sep. 2013 – Aug. 2016
